

## Honor Geometry Chapter 2 Review Sheet

- Be able to take an “if-then” statement and list the givens, draw a picture, and write down what you need to prove.
- Be able to take a statement, write it in “if-then” form and be able to write the converse, inverse and contrapositive.
- Know how to do a problem like:
  - p. 67 # 14
  - p.58 9-12
  - p. 58 3-12
  - p. 67 9-13
  - p.63 1-14
  - p. 52 WE 13-22
- Review your theorems, postulates and definitions to be able to answer the always, sometimes or never true questions.
- Know how to do a “skeleton proof” in which you are given the left side.
